| 1. | 1. The Anhaltisches Serum-Institut (ASID) at Dresden* is a publicly-owned enterprise, having a personnel of 550. During 1948 it produced lymph | |
| and serum valued at approximately three million DN. A dysentery serum in the amount of 6,200 liters was produced in 1948. By virtue of a | | A dysentery serum |
| | | . By virtue of a |
| | new process this serum is developed from the blood | of im unized pigs |
| | rather than from horses. | • • . |
| | | |
| 2. | The receipt of a shipment of poisonous snakes from | the Delkans and overseas |
| ccuntrios has enabled the Institut to complete the stock in its snake farm and thus to increase considerably the production of Viprasit, a snake- | | stock in its snake Tarm |
| | | viprasit, a siane- |
| | poison serum. | |
| | | |
| | | |
| | | · |
| | | TO 11 . To a blow of Alex |
| | Comment: The ASID is located at Desseu. If the location of the | |
| | plant as given in this report is accurate, the information presumably refers to the Sächsisches Serummerk A.G. at Dresden. | |
| | to the bachsisches berunwerk a.u. at Dresden. | 50X1-HUM |
| | Comment: The names of the director of | the Sachsisches Serumverk |
| | | d Dr. Center were stated |
| | in another report as Bethke and Dr. Kempff. The latter's address is Dresden- | |
| | Blasewitz, Emser Allee 50. The report further add | s that the production of |
| | the plant consists mainly of scarlet fever and type | noid serum. |
